

**Jason Henderson,
Senior Vice President**

Integrated Operations

Jason Henderson was named Senior Vice President, Integrated Operations in June 2025 and is a member of Bell's Senior Leadership Team.

With overall responsibility for the Supply Chain and Operations organizations, Jason also leads the Global Procurement team, which develops agile systems and processes and builds partnerships with high-performing suppliers to ensure Bell executes reliably, on time and on budget.

Since 2022 Jason has led Bell's global manufacturing centers, which include the Fort Worth Centers of Excellence (COEs), facilities, quality and environment, health and safety (EHS), and integrated business planning (IBP). Previously, he was vice president of Assembly Operations, where he oversaw Bell's assembly operations for domestic and global facilities including Mexico, Mirabel, Canada, Amarillo and Piney Flats.

Jason began his career at Bell as a V-22 flight electrician in Amarillo and held various positions in operations, military business, supply chain and flight operations over nearly 20 years. Under his leadership, the team in Amarillo achieved 79 on-time consecutive AH-1Z aircraft deliveries, reduced Cost of Rework, Repair and Scrap (CoRRS) on AH-1Z assembly line by 47% and recovered more than 15,000 hours on the V-22 program.

Jason earned his bachelor's degree in aeronautics from Embry-Riddle Aeronautical University. He is an avid supporter of high school football in Texas, and he and his wife are parents to four children: one daughter and three sons.

ABOUT BELL

Thinking above and beyond is what we do. For more than 80 years, we've been reimagining the experience of flight – and where it can take us.

We are pioneers. We were the first to break the sound barrier and to certify a commercial helicopter. We were a part of NASA's first lunar mission and brought advanced tiltrotor systems to market. Today, we're defining the future of on-demand mobility.

Headquartered in Fort Worth, Texas – as a wholly-owned subsidiary of Textron Inc., – we have strategic locations around the globe. And with nearly one quarter of our workforce having served, helping our military achieve their missions is a passion of ours.

Above all, our breakthrough innovations deliver exceptional experiences to our customers. Efficiently. Reliably. And always, with safety at the forefront.
